

# Welcome to International Group Theory Web Seminar

**Anton A. Klyachko,**  
***“One-relator relative presentations and hyperbolicity”***  
**April 8, 12:00pm (New York Time).**

**Abstract:**

There are many results generalising one-relator group theory to the case of relative presentations. In particular, I shall talk about recent theorems of Le Thi Giang, Denis Lur'e and me on the relative hyperbolicity of such groups.

Next presentation:

**April 15.** *Ben Burton “Fast, faster, fastest: Algorithms in cryptography and bioinformatics”*
